SINGLE STAGE ROTARY

Kaishan Compressor USA

MAM-200 DIGITAL CONTROL PANEL

Monitors & Controls Key Compressor Functions

- Protects compressor in the event of a fault
- Provides service required alerts
- Sequencing of up to 16 compressors
- External monitoring via RS 485 interface
- WYE Delta starter (10-50 HP) standard to reduce in-rush current

OPTIONAL 120 GALLON AIR RECEIVER

- Reduced load cycles to minimize energy consumption
- Reduced control / system wear and tear
- Peak demand coverage
- Increased condensate removal
- Design approved to ASME Section VIII

HIGH EFFICIENCY ELECTRIC MOTORS

Long Operating Life / Lower Power Use

- TEFC (IP 54) standard, IEC frame
- Class F insulation
- IE3 premium efficiency motors

INTEGRATED AFTER COOLER & COOLING FANS

Increased Cooling Efficiency

- Efficient cooling for high ambient temperatures
- 14°F (10°C) approach temperature
- Dedicated motor for cooling fan

LARGE CYCLONIC AIR INTAKE FILTRATION

- Minimal pressure drop for increased efficiency
- High level contaminant removal
- Long element life
- Outstanding protection for your investment

316 STAINLESS STEEL CONTROL TUBING

Long Tubing Life / Reduced Downtime

- Increased reliability due to corrosion free material
- Material such as nylon, copper or mild steel will fail in time causing downtime

SPIN ON AIR/OIL SEPARATOR ELEMENT (5-30 HP)

- Ease of maintenance
- Low pressure drop
- 3 PPM carryover

AUTOMATIC BELT TENSIONING

- Longer belt life
- Spring provides ideal tension
- No belt slippage

PREMIUM DISCHARGE BEARINGS

Longer Bearing Life / Quieter Operation

- The "SKK" series air ends use SKF bearings to absorb radial and axial loads
- Longer bearing life under all operating conditions
- Increased load carrying capacity

'SKK' SERIES AIREND

Maximum Output with Less Energy Usage

- Asymmetric 5 / 6 rotor profile with 100% SKF bearings
- KAPP Grinder rotor technology for tighter clearances and improved lubrication
- Precision machined rotor housing to optimize performance

OPTIONAL INTEGRATED DRYER & AIR FILTER

- Minimizes footprint
- 0.01 micron coalescing dryer pre-filter
- Auto condensate drain
- 38°F-42°F pressure dewpoint

The third-largest global compressed air manufacturer in the world has planted roots in Loxley, Alabama. At Kaishan, we are proud of our North American headquarters and have invested over \$26 million in the construction of a 120,000 sq ft ultra-modern manufacturing facility.

Kaishan internally manufactures 85% of the components of the compressor, from stamping sheet metal for the enclosures to pouring castings for the airend in our own foundry. This allows us the ability to provide more cost-effective and higher quality products to our customers resulting in the global sales of 70,000 compressors annually in a sustainable, reliable, and efficient manner.
